

Canon EXPO 2010 NEW YORK

We Speak Image

Join Canon and Golden Business Machines at a very special event – **Canon EXPO 2010 New York**. From small home offices to global enterprises, many businesses have grown and thrived thanks to innovative Canon office solutions. On Sept. 2 – 3, you can find out how to expand your vision and advance your business.

Turn advanced imaging into a business advantage

At Canon EXPO 2010, you will:

- Discover great new Canon products and technologies
- Learn about solutions, best practices and techniques that will enhance your knowledge and expand your capabilities
- Get recommendations and answers from industry experts and choose from a wide range of insightful seminars relevant to you
- Experience Canon's vision of the future of imaging, including Canon technologies that can have a profound effect on your life and work
- Show your customers the full breadth and depth of our products, and reinforce why we're an excellent choice for meeting all of their imaging needs

Canon EXPO 2010 highlights all areas where imaging plays a critical role, including:

- Consumer and Home Office
- Office Equipment
- Print Production and Graphic Arts
- Photography, Video and Projection
- Broadcast and Communications
- Healthcare Technologies
- Security Solutions

Canon business products and solutions can meet your critical needs, boost productivity, foster collaboration and help transform your business. All while keeping total cost of ownership low. See how Canon products and technologies expand the potential of your images via Cross-Media Imaging.
